

Chapter Two Science: Comparing Earth's Biomes Objectives

Lesson Five

- 1) Compare and contrast biomes.
- 2) How can biomes dictate what people can plant?
- 3) Identify the biome in which we live.

Lesson Six

- 1) Describe the biotic and abiotic factors of an ecosystem.
- 2) Explain the relationship among organisms in an ecosystem.
- 3) Describe the organization of ecosystems at the community level.
- 4) Compare and contrast water ecosystems.
